APPLIED BEHAVIOR ANALYSIS

MASTER'S OF SCIENCE IN APPLIED BEHAVIOR ANALYSIS UNIVERSITY OF MIAMI

01 ACADEMICS

Small classroom sizes and student/faculty ratios allow for one-on-one interaction with experienced faculty. In this supportive classroom environment, you will develop a solid foundation in the science of behavior that will carry you through every stage of your career, helping you to cultivate a repertoire of skills that will support your future professional endeavors.

02 RESEARCH

All faculty in the ABA Master's Program maintain active research lines. Research projects are primarily clinical and occur within the context of the practicum experience.

03 PRACTICUM

Our high-quality on-site practicum experience in a clinical setting boasts doctoral level faculty supervisors that work closely with you to prepare you to become an exceptional supervisor and skilled clinician. Our Early Intensive Behavior Intervention (EIBI) is a highly structured and evidence-based behavioral program for young children with neurodevelopmental disabilities. This program offer one-to-one, individualized treatment that focuses on skill acquisition.

Year one: practicum experience will consist of implementing programs, collecting data and monitoring programs.

Year two: practicum experience will shift to skills that closely align to your responsibilities as a behavior analyst, these include: staff training, formal monitoring, assessment and program development.

Students will receive additional experience in treating food selectivity, developing comprehensive behavior plans for inappropriate behaviors (e.g., aggression, self-injury, elopement), and community training.

04 CAREERS

On completion of the program, you will be qualified to sit for the Board Certified Behavior Analyst (BCBA) exam or pursue doctoral studies in a related field. Your experience and knowledge will be highly sought out in schools, hospitals, clinics and more.

05 MIAMI ADVANTAGE

The University of Miami is a private university recognized for its powerful school spirit known as "Hurricane Pride," thriving research community and prominent alumni. The program is centered in Miami, the multicultural hub of the America's, fostering unique real-world experiences with diverse populations across a variety of settings.
